Bandung, West Java, Indonesia

I am a Computer Technology student at Telkom University with a strong interest in Web Development and UI/UX Design. I have hands-on experience in developing web applications through academic and internship projects, using technologies such as React, HTML, CSS, JavaScript, PHP, and Node.js.

I am passionate about creating functional and user-friendly digital solutions, and I continuously improve my skills by exploring both frontend and backend development. I am also a collaborative individual with good communication skills, a strong sense of responsibility, and a willingness to learn and grow in the technology field.

Education

SMK Telkom Malang

Software Engineering | July 2020 - May 2023

- Member of MPK Organization
- Member of METIC Sub-Organization
- Participated in Utter Academy (Flutter)
- Participated in DigiUp Telkom 2022 (Junior Graphic Design)
- Learned android apps development with Android Studio Java
- Learned web development with HTML/CSS, PHP, and MySQL

Telkom University

Faculty of Applied Sciences | D3 Computer Technology | July 2023 - Now

- Participated in a community service program on IoT training for teachers SMK Nasional Bandung
- Participated in a community service program on training and implementation of LoRa-based automatic irrigation systems in Sumedang
- Participated in a community service program on ADTS training at SMKN 12 Bandung

Work Experience

School Project | Student at SMK Telkom Malang

July 2020 - May 2023 | Malang, East Java

- Developed various Android applications using Java.
- Built websites using HTML/CSS, JS, PHP, Node.js, and MySQL.
- Designed UI/UX for web projects using Figma.
- Created 2D/3D illustrations using Adobe Illustrator, Photoshop, and Blender.
- Created video editing using Adobe Premiere

Android Developer | Internship at Brawijaya University

July 2022 - December 2022 | Malang, East Java

- Created Android app of infrastructure management with RESTful API

- Created Android app for internship attendance system
- Created network monitoring website using HTML and CSS

College Project | Telkom University

July 2023 - Now | Bandung, West Java

- Built websites using HTML/CSS, JS, PHP, Node.js, MySQL, and Bootstrap
- Designed and implemented an RFID-based parking system integrating hardware and software components
- Designed and implemented an AC-to-DC power supply circuit, then integrated it with a bicycle bell system to ensure stable and functional electrical output
- Designed and implemented a database system for a laundry business, managing customer data, service tracking, and transaction records
- Designed and implemented a line follower robot using sensor-based navigation and microcontroller programming

Web Developer | Internship at RA-ATAP

August 2025 - May 2026 | Bandung, West Java

- Developed a web-based altimeter monitoring dashboard using React with API integration for real-time data tracking

Digital Arts Tutor | Freelance at Kodland

July 2024 - Now | Bandung, West Java

- Delivered interactive digital arts classes by implementing creative teaching strategies to enhance student engagement and maintain a productive learning atmosphere.
- Adapted instructional methods to accommodate individual learning paces, actively assisting students in problem-solving and concept comprehension to build their confidence.
- Collaborated with team members to ensure seamless class delivery while continuously refining teaching methodologies through practical hands-on experience.

Web Developer | TEL-U ATC

July 2026 - Now | Bandung, West Java

- Manage, maintain, and optimize the infrastructure and functionality of the Tel-U ATC website to ensure optimal performance, responsiveness, and secure user access.
- Conduct system monitoring, troubleshoot technical issues, and implement regular feature updates to maintain the stability of the institution's digital services.

Administrator | TEL-U ATC

July 2026 - Now | Bandung, West Java

- Facilitate seamless information flow and communication, while coordinating administrative requirements between internal and external stakeholders.

Social Media Officer | TEL-U ATC

- Plan, curate, and distribute relevant and engaging content across Tel-U ATC's official social media platforms.
- Manage two-way communication with digital audiences and uphold a professional institutional image to expand public reach and boost engagement.

Skills

Hard Skills

- Web Development (HTML, CSS, JavaScript, React)
- Android Development (Java, Android Studio)
- Basic Backend Development (Node.js, REST API)
- Database Design (MySQL)
- RFID System Development
- Microcontroller & Embedded System
- Basic Electronics
- IoT Implementation
- Graphic Design (Adobe Illustrator, Photoshop)
- Video Editing (Adobe Premiere)
- 3D Design (Blender, Unity)
- UI/UX Design (Figma)
- API Integration
- Basic Networking
- Data Visualization

Soft Skills

- Teamwork
- Communication Skills
- Teaching Ability
- Problem Solving
- Adaptability
- Creativity
- Initiative
- Responsibility
- Willingness to Learn
- Work Ethic

Certificate

- Google UX Design
- Google Data Analysis with Python
- Google AI
- Junior Network Administrator BNSP
- IC3 GS6 Level 1
- Microsoft Certified: Azure AI Fundamentals
- DOT Certificate of Competency Android
